Home Care

Cleanliness safely packed

Why Volpak

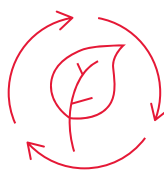

Volpak has an extensive expertise in the design and manufacturing of HFFS pouching machinery for Home Care products like liquid and powder detergents, pods and tablets. Our solutions are designed to produce leak-free and durable pouches with convenient pouring channels and reclosable options, easy to store and dispose.

Tailored features
for refill pouches

Precise and
consistent dosing

Sustainable
ready

Experts in dosing
foaming products

Consistent precise dosing

Mass flow meters ensure precise dosing of all product types. For foaming soaps, Volpak experts will help you select the ideal filling and foam extraction system, tailored to your product and production speed.

Convenient design

Volpak solutions are made to produce pouches designed for convenience, ensuring smooth product flow through optimized pouring channels and supporting features like handles for easy transport.

Sustainable

Our equipment can run monomaterials and paper-based reels, for improved recyclability. This applies also to closing options like zippers and caps, to make your pouches 100% recyclable.

	Speed	Capacity	Features
SI Series	medium-high	up to 2500cc up to 240 ppm	servo-driven up to 3 dosing stations
SP Series	medium	up to 1200cc up to 360 ppm	mechanical-driven wide range of applicators
SL Series	medium-low	up to 2000cc up to 180ppm	mechanical-driven easy set-up and maintenance
SC+ Series	high	up to 3000cc up to 400ppm	continuous filling high-volumes
